List 700 Codes that were violated: 762.15 Any impersonation of another political party/independent candidate by a
candidate, representative, or campaign material of another political party/independent
candidate shall be considered an Election Violation.

Describe what happened (be specific – include time and dates):

On February 12, 2019, at 10:20 PM, the Impact Party received a threatening email in which an individual claiming to be affiliated with the Impact Party made several accusations against Impact Party Presidential Candidate Michael Murphy. The email included screenshots of Candidate Murphy's Facebook page. The screenshots show the profile picture of Zachariah Chou, the Inspire Party Student Body Presidential Candidate, and that he was logged into his account when the screenshots were taken. It is reasonable to assume that Zachariah Chou or an individual affiliated with the Inspire Party produced the anonymous email and impersonated an Impact Party candidate to harass the party. It is clear that the screenshots were made by Zachariah Chou and that there is a connection between him and the anonymous email. It appears that Zachariah Chou or a representative of the Inspire Party acted in bad faith and impersonated an Impact Party candidate.

Describe what happened (be specific – include time and dates):

On February 15, 2019, the Independent Florida Alligator published an article regarding previous Facebook posts of Impact Party candidates
Michael Murphy, Sarah Abraham, and Santiago Gutierrez. The Independent Florida Alligator obtained copies of these Facebook posts after
an anonymous email was sent including screenshots of said posts. The screenshots show the profile picture of Zachariah Chou, the Inspire
Party Student Body Presidential Candidate, and that he was logged into his account when the screenshots were taken. It is reasonable
to assume that Zachariah Chou or an individual affiliated with the Inspire Party provided these screenshots to the Alligator in opposition of
Impact and in support of Inspire. All screenshots provided to the Alligator would be considered campaign material and should be registered with
the Supervisor of Elections. However, the screenshots were not registered and were sent anonymously, but were clearly provided by Chou.

Describe what happened (be specific – include time and dates):

On February 13, 2019, the Independent Florida Alligator published a letter to the editor submitted by Ashley Grabowski on their website and
the print edition of the paper. The letter to the editor explicitly advocated for the Student Body to vote for Zachariah Chou and the Inspire Party
during the Spring General Election on February 19th and 20th. The letter to the editor clearly met the definition of campaign material as
detailed by Student Body Statute 700.4(f). However, the article did not include the phrase "Registered Political Advertisement" or a phrase of
similar import approved by the Supervisor of Elections. This is a clear elections violation.

Describe what happened (be specific – include time and dates):

Impact-affiliated Study Body President Ian Green wrote a letter to the editor to University of Florida campus news outlet The Independent Florida Alligator. Attached with this complaint are screen captures of the letter the Alligator published on Feb 10, 2019. In his letter, President Green misrepresents material facts in the following quote:

"Specifically, the legislative branch does not have the constitutional authority to make rules and codes that the executive branch has to follow, no matter how noble the intentions."

This is a flagrant misrepresentation of UF Student Body Constitution Articles III & IV.

- The legislative branch has the sole right to enact laws, pursuant to Article III, Section 6(m).
- Article IV, Section 2(b) dictates that the executive branch shall take that Student Body law is faithfully executed.
- The combination of these two constitutional provisions necessitate that the legislative branch has the constitutional authority to make rules and codes that the executive branch has to follow.
- Hence, President Green's statement in (1) is a direct contradiction to these principles and is an unmistakable instance of misrepresentation of material fact.
- 762.11 states that "No candidate or representative of a political party shall misrepresent any material fact in campaign material or in campaigning in any form."
- Hence, President Green is in violation of Code 762.11.

Letter to the Editor: The Miseducation of Zachariah Chou

Feb 10, 2019 Updated 42 min ago

Hey Gators! As election day at UF gets closer and closer, there is always a certain amount of negative campaigning that takes place before students vote. With that said, Zachariah Chou's mischaracterization of his record and criticisms of Student Government go a step too far.

On a website published by the Inspire Party this past Tuesday, Chou claims that SG delayed implementing live-streaming of Student Senate meetings in order to avoid transparency with the student body. This claim could not be further from the truth. SG and the Impact Party have worked with SG Information Technology for the better part of a year creating a live-streaming website and platform for students at UF to view Senate meetings. We even began the procurement process for a permanently installed ceiling camera, as well as front-facing monitors for use during meetings. Ultimately, this will be a much less awkward implementation of Senate live-streaming than Chou's current process on Facebook Live.

Inspire campaign material goes on to criticize the past Impact Student Body President for vetoing legislation that "will make your jaw drop." Here, Inspire is, in fact, correct that the predecessor vetoed the "Student Body Accessibility Act," which would have required the executive branch to

include closed captioning on all SG videos. What they failed to mention, however, was his reasoning for doing so — Inspire drafted an unconstitutional bill. Specifically, the legislative branch does not have the constitutional authority to make rules and codes that the executive branch has to follow, no matter how noble the intentions. Beyond that, Inspire failed to mention that we as the executive branch were already including closed captioning as well as transcripts on our videos, and continues to do so to this day under my administration.

Finally, Chou claims that he and his party are responsible for more street lighting around Infinity Hall and 24/7 operating hours at Library West. Again, while his party is a strong supporter of these resources, they mislead students on their involvement. The project for increased street lighting around Infinity Hall began when Student Body President Susan Webster organized a nighttime lighting tour of the area surrounding Infinity Hall. Webster picked up the Mayor of Gainesville, UF Chief Operating Officer Charlie Lane, and UPD Chief Stumpf in a GOTCHA car, and drove around the residence hall with a light gauge, showing just how dark the streets got at night. As a result of this project, we now have the new lights you see today.

As for Library West, UF could always use more study space on campus as we strive to be a top five public institution, but I disagree with Senator Chou on how we should get there. Chou demanded that we raise your student fees to fund this priority, but with a little time and by fostering positive relationships with Provost Joseph Glover and other administrators, I was able to expand 24/7 library hours for three years without raising student fees even by one cent. This represents a primary difference between the leadership of Impact and the leadership of Inspire, and I can say with confidence that Chou's online petitions actually made my decisions with administrators more difficult as the petition was inaccurate and misleading.

When I took office, I swore to be a Student Body President to all Gators, including SG officers who aren't affiliated with my party. I have met with countless students and Inspire senators who have reached out to me or have come to my office hours. In fact, those Inspire senators that met with me led to supported legislation on making UF more sustainable and the funding of a blue light pole system by Graham Hall. On the other hand, Chou has only met with me to mostly say that I was wrong and his short-term Library West fix was better than my long-term strategy. In retrospect, I wish that Chou would have been more of a collaborator during my term like other Senators, instead of trying to cherry pick on the over 40 initiatives my administration has been able to accomplish for the student body.

Looking to the future, I hope that all Gators currently running to serve the student body will campaign with respect and honesty. Even in the heat of an upcoming election, our students deserve better.

Reg.Pol.Ad.T.Townsend

Ian Green is the UF Student Body President.

Describe what happened (be specific – include time and dates):

At around 12:50:00 PM on 2/19/2019, Impact Party affiliated Senator Katie Hernandez posted the attached Facebook post. This post includes a graphic showing Hernandez and several others in Impact Party campaign shirts standing with Impact Party Treasurer candidate Santiago Gutierrez, accompanied by text stating "GO VOTE! Santiago". The graphic is accompanied by text in the post's caption stating "Come out and vote for Santiago Gutierrez!". This post does not include the phrase "Registered Political Advertisement" or a phrase of similar import approved by the Supervisor of Elections.

§700.4(f) states "'Campaign Material' means any print or electronic material used for the purpose of supporting a candidate or political party for an elective Student Body office, an initiative, a referendum question or proposed constitutional amendment. 'Campaign material' shall include, but not be limited to, fliers, banners, posters, placards, electronic mail internet posts, and clothing."

§762.0 states "Candidates shall ensure that all 'campaign material' as defined in Section 700.4(f) shall be labeled with the phrase 'Registered Political Advertisement' or a phrase of similar import approved by the Supervisor of Elections. The phrase shall be followed by the name of the individual who authorized the creation of, disbursement of, or payment for, a piece of campaign material. In addition, all campaign material must be registered with the Supervisor of Elections or his or her Assistant Supervisors of Elections prior to the time of distribution. Procedures for distribution and posting of campaign material not provided for by the Student Government Election Code may be established by the Supervisor of Elections or by the Elections Commission. However, such procedures shall not be inconsistent with the Student Government Election Code and they shall not be effective unless presented in writing to the candidates and registered political parties twentyfour (24) hours prior to the time that any such procedures take effect."

This post unambiguously is an electronic material used for the purpose of supporting a candidate or political party for an elective Student Body office, an initiative, a referendum question or proposed constitutional amendment, as it features text posted by a candidate stating "GO VOTE! Santiago" and "Come out and vote for Santiago Gutierrez!".

Because this post is a campaign material which does not include the phrase "Registered Political Advertisement" or a phrase of similar import approved by the Supervisor of Elections, its posting by Katie Hernandez constitutes a violation of §762.0's requirement that "Candidates shall ensure that all 'campaign material' as defined in Section 700.4(f) shall be labeled with the phrase 'Registered Political Advertisement' or a phrase of similar import approved by the Supervisor of Elections".

Further, because this post is a campaign material which does not include the phrase "Registered Political Advertisement" or a phrase of similar import approved by the Supervisor of Elections, the person filing the complaint alleges that the post was not registered with the Supervisor of Elections or his or her Assistant Supervisors of Elections prior to the time of distribution. Thus, the post's posting by Katie Hernandez constitutes a violation of §762.0's requirement that "all campaign material must be registered with the Supervisor of Elections or his or her Assistant Supervisors of Elections prior to the time of distribution".

Describe what happened (be specific – include time and dates):

At around 12:00:00 PM on 2/20/2019, Impact Party Accounting senate candidate Jessica Jesurajan posted the attached Instagram story. This post includes a graphic which includes text stating "vote vote vote IMPACT TODAY".

§700.4(f) states "'Campaign Material' means any print or electronic material used for the purpose of supporting a candidate or political party for an elective Student Body office, an initiative, a referendum question or proposed constitutional amendment. 'Campaign material' shall include, but not be limited to, fliers, banners, posters, placards, electronic mail internet posts, and clothing."

§762.0 states "Candidates shall ensure that all "campaign material" as defined in Section 700.4(f) shall be labeled with the phrase "Registered Political Advertisement" or a phrase of similar import approved by the Supervisor of Elections. The phrase shall be followed by the name of the individual who authorized the creation of, disbursement of, or payment for, a piece of campaign material. In addition, all campaign material must be registered with the Supervisor of Elections or his or her Assistant Supervisors of Elections prior to the time of distribution. Procedures for distribution and posting of campaign material not provided for by the Student Government Election Code may be established by the Supervisor of Elections or by the Elections Commission. However, such procedures shall not be inconsistent with the Student Government Election Code and they shall not be effective unless presented in writing to the candidates and registered political parties twenty-four (24) hours prior to the time that any such procedures take effect."

This post unambiguously is an electronic material used for the purpose of supporting a candidate or political party for an elective Student Body office, an initiative, a referendum question or proposed constitutional amendment, as it features text posted by a candidate stating "vote vote vote IMPACT TODAY".

The person filing the complaint alleges that the post was not registered with the Supervisor of Elections or his or her Assistant Supervisors of Elections prior to the time of distribution. Thus, the post's posting by Jessica Jesurajan constitutes a violation of §762.0's requirement that "all campaign material must be registered with the Supervisor of Elections or his or her Assistant Supervisors of Elections prior to the time of distribution".

Describe what happened (be specific – include time and dates):

At around 10:51:00 AM on 2/19/2019, Impact Party affiliated senator Nick Meyer sent the attached message in group chat including many unaffiliated students. This message states "And for y'all engineering folk, pls vote for Logan Piper!!!". Logan Piper is an Engineering senate candidate with Impact Party. This post does not include the phrase "Registered Political Advertisement" or a phrase of similar import approved by the Supervisor of Elections.

§700.4(f) states "'Campaign Material' means any print or electronic material used for the purpose of supporting a candidate or political party for an elective Student Body office, an initiative, a referendum question or proposed constitutional amendment. 'Campaign material' shall include, but not be limited to, fliers, banners, posters, placards, electronic mail internet posts, and clothing."

§762.0 states "Candidates shall ensure that all 'campaign material' as defined in Section 700.4(f) shall be labeled with the phrase 'Registered Political Advertisement' or a phrase of similar import approved by the Supervisor of Elections. The phrase shall be followed by the name of the individual who authorized the creation of, disbursement of, or payment for, a piece of campaign material. In addition, all campaign material must be registered with the Supervisor of Elections or his or her Assistant Supervisors of Elections prior to the time of distribution. Procedures for distribution and posting of campaign material not provided for by the Student Government Election Code may be established by the Supervisor of Elections or by the Elections Commission. However, such procedures shall not be inconsistent with the Student Government Election Code and they shall not be effective unless presented in writing to the candidates and registered political parties twenty-four (24) hours prior to the time that any such procedures take effect."

This message unambiguously is an electronic material used for the purpose of supporting a candidate or political party for an elective Student Body office, an initiative, a referendum question or proposed constitutional amendment, as it features text sent by a candidate stating "And for y'all engineering folk, pls vote for Logan Piper!!!".

Because this message is a campaign material which does not include the phrase "Registered Political Advertisement" or a phrase of similar import approved by the Supervisor of Elections, its posting by Nick Meyer constitutes a violation of §762.0's requirement that "Candidates shall ensure that all 'campaign material' as defined in Section 700.4(f) shall be labeled with the phrase 'Registered Political Advertisement' or a phrase of similar import approved by the Supervisor of Elections".

Further, because this message is a campaign material which does not include the phrase "Registered Political Advertisement" or a phrase of similar import approved by the Supervisor of Elections, the person filing the complaint alleges that the message was not registered with the Supervisor of Elections or his or her Assistant Supervisors of Elections prior to the time of distribution. Thus, the message's posting by Nick Meyer constitutes a violation of §762.0's requirement that "all campaign material must be registered with the Supervisor of Elections or his or her Assistant Supervisors of Elections prior to the time of distribution".

Describe what happened (be specific – include time and dates):

At around 3:00:00 PM on 2/19/2019, Impact Party affiliated former senator Dylan Santalo posted the attached Facebook post. This post includes a photograph showing several people clad in an Impact Party campaign shirts standing around Impact Party treasurer candidate Santiago Gutierrez. The photograph is accompanied by text in the post's caption stating "I will gladly post about Santi because it's the truth! I have had the privilege of knowing Santiago Gutierrez as a great friend of mine. He is one of the most hardworking people I know and he is the most deserving person to be the next Student Body Treasurer. He is so dedicated to help students and is so passionate about paving the way for Hispanic/Latinx students. Please go out and vote for the most qualified treasurer candidate in this election. Voting is today and tomorrow from 8:30 am - 8:30 pm. Vote for Santi!". This post does not include the phrase "Registered Political Advertisement" or a phrase of similar import approved by the Supervisor of Elections.

§700.4(f) states "'Campaign Material' means any print or electronic material used for the purpose of supporting a candidate or political party for an elective Student Body office, an initiative, a referendum question or proposed constitutional amendment. 'Campaign material' shall include, but not be limited to, fliers, banners, posters, placards, electronic mail internet posts, and clothing."

§762.0 states "Candidates shall ensure that all 'campaign material' as defined in Section 700.4(f) shall be labeled with the phrase 'Registered Political Advertisement' or a phrase of similar import approved by the Supervisor of Elections. This post unambiguously is an electronic material used for the purpose of supporting a candidate or political party for an elective Student Body office, an initiative, a referendum question or proposed constitutional amendment, as it features text posted by a candidate stating "He [Santiago] is one of the most hardworking people I know and he is the most deserving person to be the next Student Body Treasurer", "Please go out and vote for the most qualified treasurer candidate in this election", and "Vote for Santi!".

Because this post is a campaign material which does not include the phrase "Registered Political Advertisement" or a phrase of similar import approved by the Supervisor of Elections, its posting by Dylan Santalo constitutes a violation of §762.0's requirement that "Candidates shall ensure that all 'campaign material' as defined in Section 700.4(f) shall be labeled with the phrase 'Registered Political Advertisement' or a phrase of similar import approved by the Supervisor of Elections".

Further, because this post is a campaign material which does not include the phrase "Registered Political Advertisement" or a phrase of similar import approved by the Supervisor of Elections, the person filing the complaint alleges that the post was not registered with the Supervisor of Elections or his or her Assistant Supervisors of Elections prior to the time of distribution. Thus, the post's posting by Dylan Santalo constitutes a violation of §762.0's requirement that "all campaign material must be registered with the Supervisor of Elections or his or her Assistant Supervisors of Elections prior to the time of distribution".

Describe what happened (be specific – include time and dates):

At around 1:58:00 PM on 2/20/2019, Impact Party Treasurer Tommy Townsend sent the attached message in GroupMe to a large group of students. This message states "Hey guys don't forget to find your voice and go vote for Impact Party today! Only takes 5 minutes and polls are open until 8:30!". This message does not include the phrase "Registered Political Advertisement" or a phrase of similar import approved by the Supervisor of Elections.

§700.4(f) states "'Campaign Material' means any print or electronic material used for the purpose of supporting a candidate or political party for an elective Student Body office, an initiative, a referendum question or proposed constitutional amendment. 'Campaign material' shall include, but not be limited to, fliers, banners, posters, placards, electronic mail internet posts, and clothing."

§762.0 states "Candidates shall ensure that all 'campaign material' as defined in Section 700.4(f) shall be labeled with the phrase 'Registered Political Advertisement' or a phrase of similar import approved by the Supervisor of Elections. The phrase shall be followed by the name of the individual who authorized the creation of, disbursement of, or payment for, a piece of campaign material. In addition, all campaign material must be registered with the Supervisor of Elections or his or her Assistant Supervisors of Elections prior to the time of distribution. Procedures for distribution and posting of campaign material not provided for by the Student Government Election Code may be established by the Supervisor of Elections or by the Elections Commission. However, such procedures shall not be inconsistent with the Student Government Election Code and they shall not be effective unless presented in writing to the candidates and registered political parties twenty-four (24) hours prior to the time that any such procedures take effect."

This message unambiguously is an electronic material used for the purpose of supporting a candidate or political party for an elective Student Body office, an initiative, a referendum question or proposed constitutional amendment, as it features text sent by a candidate stating "Hey guys don't forget to find your voice and go vote for Impact Party today! Because this message is a campaign material which does not include the phrase "Registered Political Advertisement" or a phrase of similar import approved by the Supervisor of Elections, its posting by Nick Meyer constitutes a violation of §762.0's requirement that "Candidates shall ensure that all 'campaign material' as defined in Section 700.4(f) shall be labeled with the phrase 'Registered Political Advertisement' or a phrase of similar import approved by the Supervisor of Elections".

Further, because this message is a campaign material which does not include the phrase "Registered Political Advertisement" or a phrase of similar import approved by the Supervisor of Elections, the person filing the complaint alleges that the message was not registered with the Supervisor of Elections or his or her Assistant Supervisors of Elections prior to the time of distribution. Describe what happened (be specific – include time and dates):

Impact-affiliated Study Body President Ian Green wrote a letter to the editor to University of Florida campus news outlet The Independent Florida Alligator. Attached with this complaint are screen captures of the letter the Alligator published on Feb 10, 2019. In his letter, President Green misrepresents material facts about Presidential Candidate Zachariah Chou, in the following quote:

(2) "Chou claims that he and his party are responsible for more street lighting around Infinity Hall and 24/7 operating hours at Library West."

This is a misrepresentation of Mr. Chou's position and previous statements.

- "Chou" -- in reference to Mr. Chou-- has never made a claim that President Green describes Mr. Chou as making in (2).
- The only known relevant statements to (2) are located on the Inspire Party website which affirms Chou "served as a ferocious and successful advocate for causes such...streetlights outside Infinity Hall", not that he is responsible for the streetlights.
- Additionally, this website says Inspire "Inspire Party also launched a petition and successfully advocated to fund a real 24/7 library with access to textbooks and computer", not that it is responsible for the 24/7 operating hours.
- 762.11 states that "No candidate or representative of a political party shall misrepresent any material fact in campaign material or in campaigning in any form."
- Hence, President Green's statement, "Chou claims that he and his party are responsible for more street lighting around Infinity Hall and 24/7 operating hours at Library West" misrepresents Mr. Chou's position, and claims Mr. Green has violated 762.11.

Hey Gators! As election day at UF gets closer and closer, there is always a certain amount of negative campaigning that takes place before students vote. With that said, Zachariah Chou's mischaracterization of his record and criticisms of Student Government go a step too far.

On a website published by the Inspire Party this past Tuesday, Chou claims that SG delayed implementing live-streaming of Student Senate meetings in order to avoid transparency with the student body. This claim could not be further from the truth. SG and the Impact Party have worked with SG Information Technology for the better part of a year creating a live-streaming website and platform for students at UF to view Senate meetings. We even began the procurement process for a permanently installed ceiling camera, as well as front-facing monitors for use during meetings. Ultimately, this will be a much less awkward implementation of Senate live-streaming than Chou's current process on Facebook Live.

Inspire campaign material goes on to criticize the past Impact Student Body President for vetoing legislation that "will make your jaw drop." Here, Inspire is, in fact, correct that the predecessor vetoed the "Student Body Accessibility Act," which would have required the executive branch to

include closed captioning on all SG videos. What they failed to mention, however, was his reasoning for doing so — Inspire drafted an unconstitutional bill. Specifically, the legislative branch does not have the constitutional authority to make rules and codes that the executive branch has to follow, no matter how noble the intentions. Beyond that, Inspire failed to mention that we as the executive branch were already including closed captioning as well as transcripts on our videos, and continues to do so to this day under my administration.

Finally, Chou claims that he and his party are responsible for more street lighting around Infinity Hall and 24/7 operating hours at Library West. Again, while his party is a strong supporter of these resources, they mislead students on their involvement. The project for increased street lighting around Infinity Hall began when Student Body President Susan Webster organized a nighttime lighting tour of the area surrounding Infinity Hall. Webster picked up the Mayor of Gainesville, UF Chief Operating Officer Charlie Lane, and UPD Chief Stumpf in a GOTCHA car, and drove around the residence hall with a light gauge, showing just how dark the streets got at night. As a result of this project, we now have the new lights you see today.

As for Library West, UF could always use more study space on campus as we strive to be a top five public institution, but I disagree with Senator Chou on how we should get there. Chou demanded that we raise your student fees to fund this priority, but with a little time and by fostering positive relationships with Provost Joseph Glover and other administrators, I was able to expand 24/7 library hours for three years without raising student fees even by one cent. This represents a primary difference between the leadership of Impact and the leadership of Inspire, and I can say with confidence that Chou's online petitions actually made my decisions with administrators more difficult as the petition was inaccurate and misleading.

When I took office, I swore to be a Student Body President to all Gators, including SG officers who aren't affiliated with my party. I have met with countless students and Inspire senators who have reached out to me or have come to my office hours. In fact, those Inspire senators that met with me led to supported legislation on making UF more sustainable and the funding of a blue light pole system by Graham Hall. On the other hand, Chou has only met with me to mostly say that I was wrong and his short-term Library West fix was better than my long-term strategy. In retrospect, I wish that Chou would have been more of a collaborator during my term like other Senators, instead of trying to cherry pick on the over 40 initiatives my administration has been able to accomplish for the student body.

Looking to the future, I hope that all Gators currently running to serve the student body will campaign with respect and honesty. Even in the heat of an upcoming election, our students deserve better.

Describe what happened (be specific – include time and dates):

At around 7:35:00 PM on 2/20/2019, an unknown Impact Party affiliated canvasser clad in an Impact Party campaign shirt was recorded campaigning with a student nearby in the below linked video. This linked video shows the Impact Party affiliated canvasser visibly speaking with the student about the Student Government elections in an attempt to get the student to vote for Impact Party. Critically, the interaction takes place in its entirety, clearly, as recorded within 50 feet of the door of a voting location, the Marston Science Library.

Indeed, many Impact Party affiliated canvassers were seen engaging in the same behavior within 50 feet of the door to the Marston Science Library.

§763.5 states that "No campaigning shall take place within fifty (50) feet of the door of any polling location or within 50 feet of any queue of voters defined in 700.4 (z) waiting to vote, with the exception of the designated outdoor tabling space at the J. Wayne Reitz Union."

This video unambiguously shows a flagrant disregard for §763.5's restrictions on campaigning within 50 feet of the door of any polling location, as the linked video clearly shows the Impact Party affiliated canvasser visibly speaking with the student about the Student Government elections in an attempt to get the student to vote for Impact Party within 50 feet of the door of any polling location.

Because this video unambiguously shows a flagrant disregard for §763.5's restrictions on campaigning within 50 feet of the door of any polling location, as the linked video clearly shows the Impact Party affiliated canvasser visibly speaking with the student about the Student Government elections in an attempt to get the student to vote for Impact Party within 50 feet of the door of any polling location, the depicted Impact Party affiliated canvasser has clearly committed a violation of §763.5's requirement that "No campaigning shall take place within fifty (50) feet of the door of any polling location or within 50 feet of any queue of voters defined in 700.4 (z) waiting to vote, with the exception of the designated outdoor tabling space at the J. Inspire to represent the students in College of Engineering in the UF Student Government Senate.

Inspire is dedicated to ensuring that all students voices are represented and that student government is accountable, inclusive and transparent.

Having personally worked with Inspire on legislation in the past to advocate for a victim-friendly sexual assault reporting program and a piece of legislation to increase awareness of election day on campus, I am honored to be running in this campaign.

I firmly believe in Inspire's mission of ensuring that each student at UF has someone that is genuinely listening to their needs. Inspire has a track record of advocating for change and representing students' needs.

Vote for Inspire on February 18th & 20th!

The University Information Technology Department has established a "Spam Policy" to target "sources of unwanted, unsolicited email (spam) external to the UF Network." In the policy, it states: "Spam sent to University of Florida accounts is unacceptable and violates the terms of acceptable use of the University of Florida IT resources."

To ensure political parties comply with university email regulations, Student Government established Student Body Statute 764.0. The Student Body Statutes require all candidates and parties to comply with university email usage regulations as promulgated in the acceptable use policy, which includes the University of Florida "Spam Policy."

On September 23, 2019, the Inspire Party sent an email with the subject "Tomorrow at UF!" to an undisclosed number of receipts. In the email, Inspire Party encourages students to vote for Inspire Party in the Student Government elections on September 24th and 25th.

The email was sent to multiple students who did not consent to their email being released and used for this purpose. The email that was received is an unwanted, unsolicited email that meets the definition of spam as established by university policy. The email thus is considered a violation of university regulations and a violation of Student Body Statute 764.0.

Attached to this complaint is more than 15 copies of the email received by multiple students as highlighted on each document. In addition, the University of Florida "Spam Policy" is attached.

Based on the evidence established above, we are requesting the Chair of the Elections Commission to issue a preliminary order that Inspire Party cease and desist from the distribution of campaign material as allowed by Student Body Statute 723.4. We believe this complaint establishes a preponderance of evidence that leads to a conclusion that there is a strong likelihood of a violation and the material is so offensive that it may irreparably harm other offended parties.

[POLICIES](#)[EMAIL](#)[SPAM POLICY](#)

SPAM POLICY

PAGES

Introduction

This policy is targeted at sources of unwanted, unsolicited email (spam) external to the UF Network.

Spam sent to University of Florida accounts is unacceptable and violates the terms of acceptable use of the University of Florida IT resources. It disrupts the public workplace, is detrimental to our resources, and it is not welcome by our users.

Enforcement

After the first occurrence, an attempt will be made to notify the sender that unsolicited email should not be sent to university accounts and that any further receipt of such messages will initiate our procedures to block email from the sender.

After the second occurrence, the system will be configured to block email coming from the offending account. Any reinstatement of privileges must be requested in writing from the UF ISM.

Alternatives

Those wishing to send unsolicited content to faculty and staff can purchase mailing labels from UF Information Systems, contact Nancy Hodge, 352-392-1285. Those wishing to send unsolicited content to students may purchase mailing labels from the UF Registrar, contact Sunny Balough, 352-392-1361 x7303.

Student Government elections start TOMORROW!

It's almost time to vote! Student Government elections are tomorrow and Wednesday from 8:30 AM - 8:30 PM at locations across campus, including the Reitz Printing Lab, Marston Library, and all of the locations listed below.

Why should you vote? Inspire wants to fight sexual assault on campus by installing a blue light on Fraternity Drive, work to provide more mental health support for students, bring free printing to campus libraries, expand the Uber Safe Rides program, and more!

<https://outlook.office.com/mail/abuse/f3/AAQLAGQ1MZY1YjcJLfdNpA1NDM4ZL1NNmZmLWQ4OT11MTY1Nn1mOQAQAB6Qz9-2Fjwxt0VFxXYNRWPCn4> 1/4

Student Government has a budget of **~\$22 million** that comes from UF students' fees. This money can be used to improve the lives of every student—and that's exactly what we're committed to doing.

Less than 1 out of every 5 students voted in last fall's Student Government elections, so **your vote has the potential to make a difference—we've won (and lost) Senate seats by a single vote.**

You deserve a Student Government that actually represents you, but **we need your help to make that a reality.** Every full-time UF student of any classification—undergraduate, graduate, professional, international, etc.—can vote through a secret ballot!

Inspire Party was founded in Fall 2017 to bring change to Student Government: we believe that every Gator's voice deserves to be heard and valued.

Since our founding, Inspire Senators have fought to increase accessibility to the Counseling and Wellness Center, determined strategies for working to prevent sexual assault, passed legislation making Student Government more inclusive to LGBTQ+ students, and more.

To learn more about Inspire, visit www.ufinspireparty.com.

This is our chance to bring **real change** to Student Government. Together, let's make it happen!

Student Government elections start TOMORROW!

It's almost time to vote! Student Government elections are tomorrow and Wednesday from 8:30 AM - 8:30 PM at locations across campus, including the Reliz Printing Lab, Marston Library and all of the locations listed below

Why should you vote? Inspire wants to fight sexual assault on campus by installing a blue light on Fraternity Drive, work to provide more mental health support for students, bring free printing to campus libraries, expand the Uber Safe Rides program and more!

Student Government has a budget of ~\$22 million that comes from UF students' fees. This money can be used to improve the lives of every student – and that's exactly what we're committed to doing

Less than 1 out of every 5 students voted in last fall's Student Government elections, so your vote has the potential to make a difference – we've won (and lost) Senate seats by a single vote

You deserve a Student Government that actually represents you, but we need your help to make that a reality. Every full-time UF student of any classification – undergraduate, graduate, professional, international, etc. – can vote through a secret ballot!

Inspire Party was founded in Fall 2017 to bring change to Student Government. We believe that every Gator's voice deserves to be heard and valued.

Since our founding, Inspire Senators have fought to increase accessibility to the Counseling and Wellness Center, determined strategies for working to prevent sexual assault, passed legislation making Student Government more inclusive to LGBTQ+ students, and more.

Why should you vote? Inspire wants to fight sexual assault, installing a blue light on Fraternity Drive, work to increase support for students, bring free printing to campus libraries, expand the Uber Safe Rides program, and more!

Student Government has a budget of ~\$22 million that comes from UF students' fees. This money can be used to improve the lives of every student—and that's exactly what we're committed to doing.

Less than 1 out of every 5 students voted in last fall's Student Government elections, so **your vote has the potential to make a difference—we've won (and lost) Senate seats by a single vote.**

You deserve a Student Government that actually represents you, but **we need your help to make that a reality.** Every full-time UF student of any classification—undergraduate, graduate, professional, international, etc.—can vote through a secret ballot!

Inspire Party was founded in Fall 2017 to bring change to Student Government: we believe that every Gator's voice deserves to be heard and valued.

Since our founding, Inspire Senators have fought to increase accessibility to the Counseling and Wellness Center, determined strategies for working to prevent sexual assault, passed legislation making Student Government more inclusive to LGBTQ+ students, and more.

List 700 Codes that were violated:

746.0

Describe what happened (be specific - include time and dates):

On August 29, 2019, at approximately 8:00am, the Gator Party table outside of the Student Government elections qualifying and slating rooms was left unattended. This is a violation of a Student Activities and Involvement regulation which states that "No leaving stacks of materials unattended on university grounds". The table clearly displayed the "Gator Party" banner, which qualifies as "Campaign Material" per §700.4(f). Additionally, as there was no one at the table at the time, it was left unattended. This is a violation of 746.0.

§700.4(f) states "(f) 'Campaign Material' means any print or electronic material used for the purpose of supporting a candidate or political party for an elective Student Body office, an initiative, a referendum question or proposed constitutional amendment. 'Campaign material' shall include, but not be limited to, fliers, banners, posters, placards, electronic mail internet posts, and clothing"

§746.0 states that "All political parties must comply with all rules and regulations governing student organizations set forth by the Department of Student Activities and Involvement."

The relevant regulation stating that "No leaving stacks of materials unattended on university grounds" is listed at: <https://www.studentinvolvement.ufl.edu/Event-Planning/Event-Policies>.

List 700 Codes that were violated:

762.0

Describe what happened (be specific - include time and dates):

On August 31st, 2019, at approximately 1:21 PM, Gator Party member Audrey Wikan maintained a "story" on Instagram including a photo of Gators Party members and the text "these are my people!!!" and "@gatorpartyuf". The photo is campaign material per §700.4(f), as it contains imagery of Gator Party members Emily Dunson, Wynton White, and Richard Doan and clearly demonstrates an association with Gator Party that is supportive in nature. Additionally demonstrating that this is campaign material is the fact that the photo included in this material was also posted on the Gator Party Instagram account and Facebook page. The photo did not include the phrase "Registered Political Advertisement" or a phrase of similar import approved by the Supervisor of Elections, as required by §762.0. Therefore, a violation of §762.0 occurred.

§762.0 states "Candidates shall ensure that all "campaign material" as defined in Section 700.4(f) shall be labeled with the phrase "Registered Political Advertisement" or a phrase of similar import approved by the Supervisor of Elections. The phrase shall be followed by the name of the individual who authorized the creation of, disbursement of, or payment for, a piece of campaign material. In addition, all campaign material must be registered with the Supervisor of Elections or his or her Assistant Supervisors of Elections prior to the time of distribution. Procedures for distribution and posting of campaign material not provided for by the Student Government Election Code may be established by the Supervisor of Elections or by the Elections Commission. However, such procedures shall not be inconsistent with the Student Government Election Code and they shall not be effective unless presented in writing to the candidates and registered political parties twenty-four (24) hours prior to the time that any such procedures take effect."

§700.4(f) states "(f) "Campaign Material" means any print or electronic material used for the purpose of supporting a candidate or political party for an elective Student Body office, an initiative, a referendum question or proposed constitutional amendment. "Campaign material" shall include, but not be limited to, fliers, banners, posters, placards, electronic mail internet posts, and clothing"

Hey Gator Friends:) It's officially election week. My most prominent emotion right now is grateful. The past few weeks of walking alongside such amazing people who are willing to share their Gator story has been such a beautiful culmination of my past three years here. I'm so grateful to have friends and family who have revealed to me what it means to be a Gator, and that it's different for everyone. Gator Party is a group of students, really friends, that I believe have a heart for making waves in this campus. It's Great to be a Florida Gator, but we also have a long way to go! Julia told me that "The next generation's floor should be your ceiling," and that's exactly what I know will come of this movement. Join us in making strides toward reshaping the culture of our generation to solve issues that affect all students.

GET HYPE AND VOTE FOR GOOD! Tuesday and Wednesday this week woo!

Our platform is so revealing of initiatives that are going to empower students from various lived experiences. One of the initiatives that I am so proud of is bringing the Green Dot bystander intervention training to our students. Tackling the issues of our culture means shaping the mindset of our generation through education and trust. This program will bring empowerment and dignity to students by activating students to know how to be a part of the solution. Power based personal violence prevention is everyone's responsibility. Let's do this together!

Describe what happened (be specific - include time and dates):

On August 31st, 2019, at approximately 12:30 PM, Gator Party member Kaylin Bailey maintained a "story" on Instagram that included Gator Party campaign material, including the text "@gatorpartyuf" that clearly identified the content as associated with the party. The photo is campaign material per §700.4(f), as it contains imagery of Gator Party members, including Emily Dunson, Wynton White, and Richard Doan. The campaign material had previously been posted on the Gator Party Instagram account and the Gator Party Facebook account, further demonstrating that Bailey's post was in fact campaign material. The photo did not include the phrase "Registered Political Advertisement" or a phrase of similar import approved by the Supervisor of Elections, as required by §762.0. Therefore, a violation of §762.0 occurred.

§762.0 states "Candidates shall ensure that all "campaign material" as defined in Section 700.4(f) shall be labeled with the phrase "Registered Political Advertisement" or a phrase of similar import approved by the Supervisor of Elections. The phrase shall be followed by the name of the individual who authorized the creation of, disbursement of, or payment for, a piece of campaign material. List 700 Codes that were violated:

762.0

Describe what happened (be specific - include time and dates):

On August 31st, 2019, at approximately 12:40 PM, Gator Party member Cooper Brown maintained a "story" on Instagram including Gator Party material and including text that encouraged viewers to follow the Gator Party's Instagram account. The photo is campaign material per §700.4(f), as it contains imagery of Gator Party members Emily Dunson, Wynton White, and Richard Doan, specifically mentions the "@gatorpartyuf" Instagram account, and includes material that was also posted on the Gator Party Instagram account and Facebook. The photo did not include the phrase "Registered Political Advertisement" or a phrase of similar import approved by the Supervisor of Elections, as required by §762.0. Therefore, a violation of §762.0 occurred.

§762.0 states "Candidates shall ensure that all "campaign material" as defined in Section 700.4(f) shall be labeled with the phrase "Registered Political Advertisement" or a phrase of similar import approved by the Supervisor of Elections. The phrase shall be followed by the name of the individual who authorized the creation of, disbursement of, or payment for, a piece of campaign material. In addition, all campaign material must be registered with the Supervisor of Elections or his or her Assistant Supervisors of Elections prior to the time of distribution. Procedures for distribution and posting of campaign material not provided for by the Student Government Election Code may be established by the Supervisor of Elections or by the Elections Commission. However, such procedures shall not be inconsistent with the Student Government Election Code and they shall not be effective unless presented in writing to the candidates and registered political parties twenty-four (24) hours prior to the time that any such procedures take effect."

§700.4(f) states "(f) "Campaign Material" means any print or electronic material used for the purpose of supporting a candidate or political party for an elective Student Body office, an initiative, a referendum question or proposed constitutional amendment. "Campaign material" shall include, but not be limited to, fliers, banners, posters, placards, electronic mail internet posts, and clothing"

Describe what happened (be specific - include time and dates):

On August 31st, 2019, at approximately 12:45 PM, Gator Party member Abby Morris maintained a "story" on Instagram showing Gator Party campaign material and including the text "Nice! Go Gators!" and "@gatorpartyuf", clearly indicating the material's association with Gator Party. The photo is campaign material per §700.4(f), as it contains imagery of Gator Party members including Emily Dunson, Wynton White, and Richard Doan. Additionally, the same photo was posted on the Gator Party Instagram and Gator Party Facebook page, further demonstrating the material's political association with Gator Party. The photo did not include the phrase "Registered Political Advertisement" or a phrase of similar import approved by the Supervisor of Elections, as required by §762.0. Therefore, a violation of §762.0 occurred.

§762.0 states "Candidates shall ensure that all "campaign material" as defined in Section 700.4(f) shall be labeled with the phrase "Registered Political Advertisement" or a phrase of similar import approved by the Supervisor of Elections. On August 9, 2019, at approximately 11:56 AM in Turlington Plaza, Gator Party displayed campaign materials exceeding 4' X 4' at their table. Specifically, Gator Party displayed a banner that exceeded 4' X 4' . This banner qualifies as campaign material pursuant to §700.4(f). The displaying of this banner is a violation of a §765.1, which states "Campaign materials accompanying tables permitted pursuant to 765.0 may include a banner not to exceed 4' X 4'." Therefore, a violation of §765.1 occurred.

§765.1 states, in full, "Campaign materials accompanying tables permitted pursuant to 765.0 may include a banner not to exceed 4' X 4'. Any banner under this section may be displayed in a manner that the total height does not exceed 12'. The supporting mechanism for such banner may not exceed 2" X 2" in girth. Campaign materials may be displayed on or around any table permitted pursuant to 765.0 in any manner subject to University guidelines and the other provisions of this chapter."

§700.4(f) states "(f) "Campaign Material" means any print or electronic material used for the purpose of supporting a candidate or political party for an elective Student Body office, an initiative, a referendum question or proposed constitutional amendment. "Campaign material" shall include, but not be limited to, fliers, banners, posters, placards, electronic mail internet posts, and clothing".

Describe what happened (be specific - include time and dates):

On September 10, 2019, at approximately 11:28am, Gator Party was seen tabling in Turlington Plaza at Table 8, a table that was not reserved for the purpose of Student Government election tabling. This is a violation of a Student Activities and Involvement regulation which states that "All student organization events or programs (excluding general organization meetings), that take place on University grounds, require an Event Permit obtained by completing a request through Gator Connect." Political parties and candidates were permitted to only use Tables 5, 6, and 7 in Turlington Plaza. Gator Party's use of Table 8 constitutes a violation of §746.0, which states that §746.0 states that "All political parties must comply with all rules and regulations governing student organizations set forth by the Department of Student Activities and Involvement." Therefore, a violation of §746.0 occurred.

The relevant regulation stating that "All student organization events or programs (excluding general organization meetings), that take place on University grounds, require an Event Permit obtained by completing a request through Gator Connect." can be found at <https://www.studentinvolvement.ufl.edu/Event-Planning/Event-Policies>.

762.0

Describe what happened (be specific - include time and dates):

On September 19th, 2019, at approximately 2:50 PM, Gator Party member Nick Meyer maintained campaign material on Instagram that was not registered with the Supervisor of Elections or their Assistant Supervisors of Elections prior to the time of distribution.

Specifically, the post showed the Gator Party platform and included the text "Check out the full platform!". The post is campaign material per §700.4(f), as it contains imagery of Gator Party materials, text of their platform, and is supportive of Gator Party. Therefore, a violation of §762.0 occurred.

§762.0 states "Candidates shall ensure that all "campaign material" as defined in Section 700.4(f) shall be labeled with the phrase "Registered Political Advertisement" or a phrase of similar import approved by the Supervisor of Elections. The phrase shall be followed by the name of the individual who authorized the creation of, disbursement of, or payment for, a piece of campaign material. In addition, all campaign material must be registered with the Supervisor of Elections or his or her Assistant Supervisors of Elections prior to the time of distribution. Procedures for distribution and posting of campaign material not provided for by the Student Government Election Code may be established by the Supervisor of Elections or by the Elections Commission. However, such procedures shall not be inconsistent with the Student Government Election Code and they shall not be effective unless presented in writing to the candidates and registered political parties twenty-four (24) hours prior to the time that any such procedures take effect."

§700.4(f) states "(f) "Campaign Material" means any print or electronic material used for the purpose of supporting a candidate or political party for an elective Student Body office, an initiative, a referendum question or proposed constitutional amendment. "Campaign material" shall include, but not be limited to, fliers, banners, posters, placards, electronic mail internet posts, and clothing"

762.0

Describe what happened (be specific - include time and dates):

On September 20th, 2019, at approximately 7:39 PM, Gator Party candidate Andrew Goren maintained and had posted campaign material on Facebook that was not labeled with the phrase "Registered Political Advertisement" or a phrase of similar import approved by the Supervisor of Elections.

The post is campaign material per §700.4(f), as it contains supportive descriptions of Gator Party and Goren's candidacy. Therefore, a violation of §762.0 occurred.

§762.0 states "Candidates shall ensure that all "campaign material" as defined in Section 700.4(f) shall be labeled with the phrase "Registered Political Advertisement" or a phrase of similar import approved by the Supervisor of Elections. The phrase shall be followed by the name of the individual who authorized the creation of, disbursement of, or payment for, a piece of campaign material. In addition, all campaign material must be registered with the Supervisor of Elections or his or her Assistant Supervisors of Elections prior to the time of distribution. Procedures for distribution and posting of campaign material not provided for by the Student Government Election Code may be established by the Supervisor of Elections or by the Elections Commission. However, such procedures shall not be inconsistent with the Student Government Election Code and they shall not be effective unless presented in writing to the candidates and registered political parties twenty-four (24) hours prior to the time that any such procedures take effect."

§700.4(f) states "(f) "Campaign Material" means any print or electronic material used for the purpose of supporting a candidate or political party for an elective Student Body office, an initiative, a referendum question or proposed constitutional amendment. "Campaign material" shall include, but not be limited to, fliers, banners, posters, placards, electronic mail internet posts, and clothing"

Hi! My name is Andrew Goren and I am running to be a District B senator at the University of Florida. For as long as I can remember, coming to this great University has always been a dream of mine! 4 years ago, I was accepted to this amazing university. 4 years later, a year in senate and so many amazing experiences later, I am honored and humbled to be running for a senate seat with this amazing new party, the Gator Party! The Gator Party is dedicated to making students' voices heard and finding the best solutions to issues occurring on campus. Feel free to comment and share my post to let me know what the missing piece might be on our campus. Thank you all and go Gators!

Person(s) whom complaint is against: Inspire Party (Ashley Grabowski, Zachary Amrose)

List 700 Codes that were violated: 746.0

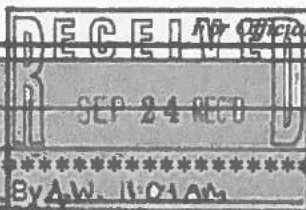

Describe what happened (be specific – include time and dates):

On September 20, 2019, a police report was filed by members of the Inspire Party

against candidate Mark Merwitzer following their release of campaign material against the Inspire Party.

This police report was an obvious attempt at intimidating Mark Merwitzer from continuing his campaign against Inspire Party, and violated Code 746.0 due to a violation of the Student Activities and Involvement's policies regarding non-discrimination based on political affiliation, hazing, and "Suspension and Grievances" due to a violation of Florida Statutes 760.51, 817.49, and 837.05.
