List 700 Codes that were violated:

751.0 "Each political party, or candidate, if running as an independent, shall submit to the Supervisor of Elections each Monday by 5:00 PM starting after the mandatory meeting referenced in 713.5 until the Monday following the election, as well as the Tuesday, Wednesday, and Thursday of election week a statement of all contributions and expenditures."

Describe what happened (be specific – include time and dates):

On July 24, 2019, prior to the start of the election season, Inspire Party President Zachary Amrose contacted the University of Florida Registrar Office to solicit directory information. The cost of the request was \$271, which was required to be paid prior to being processed. The request took at least four (4) weeks to process according to emails obtained. However, the expenditure was not reported until September 24, 2019. Based on the emails obtained, it is evident that the Inspire Party had an expenditure that went unreported for a continued period of time. Also, the request was initiated before the start of the election cycle, as defined by Student Body Statute 700.4(k), which is a violation of Student Body Statute 751.1, which limits all campaign activities to the election cycle.

Good afternoon Lindsay,

Thank you for the help! I have one more question before making a purchase: if the registrar's office were to receive payment for a request for Fall 2019 data on August 26th, about how long do you believe I could expect to wait before the requested information is made available to me?

I understand that you may be unable to provide me with an exact timeframe, but any approximate estimation of a range of days or weeks which typically is expected for requesters to wait would be very helpful.

Thanks again,

Good afternoon Zachary,

We can provide the following: All students – undergraduate, graduate, and professional – for Spring/Summer/Fall 2018 and Spring/Summer/Fall 2019. For Fall 2019, registration is ongoing until August 26th; therefore, the data could be incomplete if a student has not registered by the time the data is pulled.

- Student Name
- Classification
- College
- Local Address
- Permanent Address
- Telephone
- Email Address
- Enrollment Status
- Major
- Most recent previous education institution attended
- Dates of attendance at UF
- Degree earned
- Minors earned

- Concentrations earned
- Certificates earned

If you would like any other information, please let us know.

The estimated cost of processing your order will be \$271. **We cannot begin to process the order until payment is received.** Once we receive payment, we will place the order for data.

We accept check or money order payable to University of Florida. Payment can be mailed to:

University of Florida
Registrar's Office
Lindsay Cravey
Attn: data requests
PO Box 114000
Gainesville, FL 32611

Or you can pay in person at the Registrar's Information Counter at 222 Criser Hall between the hours of 8am and 4:30pm.

Once we have the data ready we will contact you via email. The data will be provided in an excel spreadsheet. The data will be accessible for 10 business days. Therefore, if you need the data after 10 days, you will have to place and pay for another request. Let me know if you have any concerns or questions.

Warmest regards,
Lindsay

Hello Lindsay,

Yes; I would like to request data for all students from those six terms. I am unsure whether the Fall 2019 data is available, but I would like it if it is available. I will likely cut down on the information I am requesting if the cost associated with so many fields is prohibitive.

Good afternoon Zachary,

The cost varies depending on the data requested. Can you clarify which terms you are looking for? Are you looking for data to be pulled from six separate terms, Spring/Summer/Fall 2018 and Spring/Summer/Fall 2019? From the form, it also looks like you would like all current student information for each of those terms. Any clarification that you can provide would better assist me in confirming the data we can provide as well as the cost.

Warmest regards,
Lindsay

Zachary Aaron Amrose The concern is the communication that you may have had with another individual who is DMing party members sounds of nuclear bombs and other concerning messages. We can't say how much, if any, part you took in that action. To ensure that everyone feels safe, you were temporarily removed from an internal group chat in the meantime as this is investigated further.

Whether or not you feel comfortable with these messages isn't particularly relevant—the students who received them didn't, and that takes priority. In an age in which mass shootings and acts of violence are common, we chose to respect that.

Students reporting things that make them feel unsafe isn't something to be ashamed of, and to be honest, I don't think it's noble of you (or anyone else) to imply otherwise. The incident was handled as privately as possible in an attempt to respect the privacy of you and the student who sent the messages as the incident underwent investigation. You are choosing to make these details public in your comments, but that does not make it appropriate for you to shame others for appropriately documenting incidents that make them feel unsafe.

William Zelin kind of like how I got banned from the inspire party's merrymaking group chat out of nowhere yesterday? or do we only apply these rules when they are convenient?

Zachary Aaron Amrose Hey Will.

Evidence was submitted that suggests that you sent screenshots of internal messages to another student. The student who received these screenshots then sent nuclear bomb sounds in direct messages to two members of our party. When one of these members indicated that they weren't comfortable with this, the student responded "actions have consequences." The members who received these messages were not comfortable with this, and you were removed from internal group chats as a result as further investigation of this incident unfolds.

We are committed to not blocking students from our page or deleting comments unless they are hateful or threatening attacks on specific individuals. Your removal from a group chat stemmed from this concern. Hope this helps.

Official Statement from our President regarding the student led protests that will be taking place next week on Fraternity Row.

INTERFRATERNITY COUNCIL
UNIVERSITY of FLORIDA

OFFICIAL STATEMENT REGARDING THE PROTEST FOR BLUE LIGHTS ON FRATERNITY ROW

The Interfraternity Council recognizes the students who are exercising their right to freedom of speech by protesting on Fraternity Row next Tuesday, September 17th to stand up for a cause that many feel passionate will make our campus safer. We have always supported and will continue our support of several assault awareness and increased campus safety.

There are no active chapter presidents or chapter bodies that are opposed to the installation of additional blue lights anywhere on our campus. Our council leadership is not, has not been, and will not be directly involved in any student government decisions or conversations with regards to the use of student government funds towards not only the installation of these proposed blue lights, but any SG funding matters.

Our council is consistently making strides towards making all of our chapter facilities the safest they can be for students. We are confident that our non-member education programs, standards of operation, and chapter leaders promote a safe student environment on Fraternity Row and around campus.

We ask that those who take part in the protest are respectful towards our chapter facilities. Student's exercising their right to freedom of speech peacefully should be respected and encouraged to stand up for what they believe in.

We request that student media organizations are respectful towards our community and chapter presidents. These are positions who work tirelessly in an effort to make their organizations, our community, and this campus better. They deserve to be treated with nothing but the utmost respect.

Our council stands together as a whole in supporting the safety and well-being of all students on our campus, the actions or words of few do not reflect the values of the entire community. Please refrain from creating any false narratives that should support opposing. Any questions, comments or concerns can be directed to president@ufifc.org.

Respectfully,

Tyler J. Enright
Interfraternity Council President

List 700 Codes that were violated:

762.0

Describe what happened (be specific - include time and dates):

On September 19th, 2019, at approximately 1:41 PM, Gator Party member Audrey Wikan posted campaign material—an Instagram story, specifically—that we do not believe was registered with the Supervisor of Elections or their Assistant Supervisors of Elections prior to the time of distribution.

Specifically, the post included the text "I cannot stress this enough... HASHTAG. IT. STARTS. WITH. YOU.", which is a slogan of Gator Party, and "@gatorpartyuf", and also included Gator Party's platform over an orange background. The post is campaign material per §700.4(f).

§762.0 states "Candidates shall ensure that all "campaign material" as defined in Section 700.4(f) shall be labeled with the phrase "Registered Political Advertisement" or a phrase of similar import approved by the Supervisor of Elections. The phrase shall be followed by the name of the individual who authorized the creation of, disbursement of, or payment for, a piece of campaign material. In addition, all campaign material must be registered with the Supervisor of Elections or his or her Assistant Supervisors of Elections prior to the time of distribution. Procedures for distribution and posting of campaign material not provided for by the Student Government Election Code may be established by the Supervisor of Elections or by the Elections Commission. However, such procedures shall not be inconsistent with the Student Government Election Code and they shall not be effective unless presented in writing to the candidates and registered political parties twenty-four (24) hours prior to the time that any such procedures take effect."

§700.4(f) states "(f) "Campaign Material" means any print or electronic material used for the purpose of supporting a candidate or political party for an elective Student Body office, an initiative, a referendum question or proposed constitutional amendment. "Campaign material" shall include, but not be limited to, fliers, banners, posters, placards, electronic mail internet posts, and clothing".

Therefore, Gator Party member Audrey Wikan seemingly committed a violation of §762.0, as she seemingly did not get this exact campaign material properly registered before she submitted it.

List 700 Codes that were violated:

765.1

746.0

Describe what happened (be specific - include time and dates):

On September 23rd, 2019, at approximately 2:26 PM, Gator Party candidate Marcus Nelson tabled outside Beaty Towers in a manner which was out of compliance with SAI policies.

Specifically, the video shows the candidate waiting for students to pass by to campaign to them on behalf of Gator Party.

§765.1 states "Campaign materials accompanying tables permitted pursuant to 765.0 may include a banner not to exceed 4' X 4'. Any banner under this section may be displayed in a manner that the total height does not exceed 12'. The supporting mechanism for such banner may not exceed 2" X 2" in girth. Campaign materials may be displayed on or around any table permitted pursuant to 765.0 in any manner subject to University guidelines and the other provisions of this chapter."

§746.0 states "All political parties must comply with all rules and regulations governing student organizations set forth by the Department of Student Activities and Involvement."

Thus, Gator Party is prohibited from tabling without a permit from SAI, as SAI states within its policies that "Tabling requires a permit submitted in Gator Connect by a member of the student organization." Because no such permit was submitted by Gator Party to table at Beaty Towers with their own table, Gator Party and candidate Marcus Nelson are not in compliance with §765.1 and §746.0.

Describe what happened (be specific - include time and dates):

On September 24, 2019, at approximately 8:52am, Gator Party was seen tabling in the Reitz Union Outdoor Tabling Area, an area that was not reserved for the purpose of Student Government election tabling. This is a violation of a Student Activities and Involvement regulation which states that "All student organization events or programs (excluding general organization meetings), that take place on University grounds, require an Event Permit obtained by completing a request through Gator Connect."

The J. Wayne Reitz Union Event Services Confirmation dated September 16, 2019 demonstrates that tabling was only allowed at the North Terrace on that day. Gator Party's tabling at the North Terrace constitutes a violation of §746.0, which states that §746.0 states that "All political parties must comply with all rules and regulations governing student organizations set forth by the Department of Student Activities and Involvement."

The relevant regulation stating that "All student organization events or programs (excluding general organization meetings), that take place on University grounds, require an Event Permit obtained by completing a request through Gator Connect." can be found at <https://www.studentinvolvement.ufl.edu/Event-Planning/Event-Policies>.

Describe what happened (be specific - include time and dates):

On September 18th, 2019, at approximately 7:20 PM, Gator Party supporter Julia Rodriguez posted campaign material—an Instagram story, specifically—that was not registered with the Supervisor of Elections or their Assistant Supervisors of Elections prior to the time of distribution.

Specifically, the post showed Gator Party campaign material and included the text ""Go gator party !!!!". The post is campaign material per §700.4(f), as it contains imagery of Gator Party materials, a direct request that viewers vote for Gator Party, and it is "electronic material used for the purpose of supporting a candidate or political party for an elective Student Body office."

§762.0 states "Candidates shall ensure that all "campaign material" as defined in Section 700.4(f) shall be labeled with the phrase "Registered Political Advertisement" or a phrase of similar import approved by the Supervisor of Elections. The phrase shall be followed by the name of the individual who authorized the creation of, disbursement of, or payment for, a piece of campaign material. In addition, all campaign material must be registered with the Supervisor of Elections or his or her Assistant Supervisors of Elections prior to the time of distribution. Procedures for distribution and posting of campaign material not provided for by the Student Government Election Code may be established by the Supervisor of Elections or by the Elections Commission. However, such procedures shall not be inconsistent with the Student Government Election Code and they shall not be effective unless presented in writing to the candidates and registered political parties twenty-four (24) hours prior to the time that any such procedures take effect."

Describe what happened (be specific - include time and dates):

On September 19th, 2019, at approximately 5:42 PM, Gator Party member Nick Meyer maintained a "story" on Instagram showing Gator Party campaign material and including the text "Check out the full platform!". The story is campaign material per §700.4(f), as it contains imagery of Gator Party materials and encouragement that the viewer further engage with Gator Party campaign material. Further, the story is an "electronic material used for the purpose of supporting a candidate or political party for an elective Student Body office". The photo did not include the phrase "Registered Political Advertisement" or a phrase of similar import approved by the Supervisor of Elections, as required by §762.0. Therefore, Meyer violated §762.0.

§762.0 states "Candidates shall ensure that all "campaign material" as defined in Section 700.4(f) shall be labeled with the phrase "Registered Political Advertisement" or a phrase of similar import approved by the Supervisor of Elections. The phrase shall be followed by the name of the individual who authorized the creation of, disbursement of, or payment for, a piece of campaign material. Describe what happened (be specific - include time and dates):

On September 13th, 2019, at approximately 2:56 PM, the person who Gator Party has referred to as their Treasurer, Richard Doan, posted campaign material on Facebook that did not include the phrase "Registered Political Advertisement" or a phrase of similar import approved by the Supervisor of Elections, as required by §762.0.

Specifically, the post included Gator Party imagery and the text "Let's figure out the puzzle of student life improvement together." The post is campaign material per §700.4(f), as it contains elements that are supportive of Gator Party, text that encourages students to engage with Gator Party, and is "electronic material used for the purpose of supporting a candidate or political party for an elective Student Body office". The post did not include the phrase "Registered Political Advertisement" or a phrase of similar import approved by the Supervisor of Elections, as required by §762.0. Therefore, Doan violated §762.0.

§762.0 states "Candidates shall ensure that all "campaign material" as defined in Section 700.4(f) shall be labeled with the phrase "Registered Political Advertisement" or a phrase of similar import approved by the Supervisor of Elections. List 700 Codes that were violated:

762.11
741.0
741.1

Describe what happened (be specific - include time and dates):

The identity of Gator Party's true president has been a subject of widespread intrigue, including from the Independent Florida Alligator ("the Alligator"). According to the Alligator, "[o]n Aug. 27, the [Gator] party submitted a Letter to the Editor to The Alligator announcing its establishment at 7:24 p.m. The letter named Dunson as president, Wynton White as spokesperson and Doan as treasurer... Stephanie Siler, the SG supervisor of elections, received an updated registration for Gator Party on Aug. 27 with Doan as the party's treasurer, she wrote in an email. She said she received an email from Grosse that same day at 7:33 p.m. stating Dunson would serve as Gator Party's president. The party's Facebook announcement on Aug. 28 and all subsequent campaign materials refer to Dunson as president."

§762.11 states that "No candidate or representative of a political party shall misrepresent any material fact in campaign material or in campaigning in any form."

Danielle Grosse was Gator Party's president at the time that the Alligator was told that Emily Dunson was Gator Party's president. Thus, Gator Party misrepresented a material fact—the identity of its party president, a clear violation of §762.11.

Gator Party has attempted to change its party president or treasurer through submitting multiple party registration forms and through email to the Supervisor of Elections.

Further, however, there is no process within the election laws to change a party's president through email. The only statutory process to name a party president is that encapsulated within §741.0, copied below.

- 741.0 The official registration of a political party shall be fulfilled by the procedures herein defined. All prospective political parties and political parties shall physically file conditions (a) through (e) with the Supervisor of Elections or his/her designee at the Student Government office no sooner than 9:00 AM seven (7) calendar days prior to the first day of qualifying and no later than noon of the day immediately prior to the first day of qualifications as specified in 733.0 all of the following information which shall be certified as correct by the party president:
- (a) Name of party;
 - (b) Name, address, classification, student number, email address, and telephone number of the party president;
 - (c) Name, address, classification, student number, email address, and telephone number of the party treasurer;
 - (d) Address and telephone number of any party headquarters;
 - (e) Name, address, classification, student number, email address, and telephone number of a designated party representative if different than the named party president.

Of further relevance is §741.0, as it contains a process for a change in leadership accessible to the party president of a party which used that name in a previous campaign.

- 741.1 When registering political parties the name of the party may be retained by the students who used that name in the previous election. The president (and only the president) of the party from the previous semester has the right of first refusal to the party name if the party ran one (1) campaign in the last three (3) election cycles. If the president does not want to use the name again, the name may be used by the group that submits the first complete registration. The registration includes a hard copy of the political party registration.

Gator Party has not ran candidates in a previous campaign in the last three (3) election cycles.

There is no process in §741.0 or §741.1 to allow a party to submit multiple registration forms to update its leadership.

There is no statutory process which enables Gator Party to change its party president—in email or otherwise—during a campaign, while codes relevant to selecting a party president specify a process incompatible with Gator Party's attempts to change its leadership.

Each instance of Gator Party referring to Emily Dunson in social media or otherwise as the party president is thus a misrepresentation of material fact, as only the original party registration is valid.

Even if Gator Party's solution of naming Emily Dunson as party president through email was valid, the fact that Gator Party apparently sent this email to the Supervisor of Elections naming Dunson as the party president only after telling the Alligator that Dunson is party president is a misrepresentation of material fact.

List 700 Codes that were violated:

762.0

Describe what happened (be specific - include time and dates):

On September 25th, 2019, at approximately 2:30 AM, Gator Party candidate Feraby Hoffman maintained campaign material—an Instagram story, specifically—that we do not believe was registered with the Supervisor of Elections or their Assistant Supervisors of Elections prior to the time of distribution.

Specifically, the post showed imagery of Gator Party campaign material and included the text ""go gator party!!" and "vote today!!!!". The post is campaign material per §700.4(f), as it is "electronic material used for the purpose of supporting a candidate or political party for an elective Student Body office." In this case, the material was used for the purpose of supporting Hoffman and Gator Party. Therefore, we believe that Hoffman violated §762.0.

§762.0 states "Candidates shall ensure that all "campaign material" as defined in Section 700.4(f) shall be labeled with the phrase "Registered Political Advertisement" or a phrase of similar import approved by the Supervisor of Elections. The phrase shall be followed by the name of the individual who authorized the creation of, disbursement of, or payment for, a piece of campaign material. In addition, all campaign material must be registered with the Supervisor of Elections or his or her Assistant Supervisors of Elections prior to the time of distribution. Procedures for distribution and posting of campaign material not provided for by the Student Government Election Code may be established by the Supervisor of Elections or by the Elections Commission. However, such procedures shall not be inconsistent with the Student Government Election Code and they shall not be effective unless presented in writing to the candidates and registered political parties twenty-four (24) hours prior to the time that any such procedures take effect."

§700.4(f) states "(f) "Campaign Material" means any print or electronic material used for the purpose of supporting a candidate or political party for an elective Student Body office, an initiative, a referendum question or proposed constitutional amendment. "Campaign material" shall include, but not be limited to, fliers, banners, posters, placards, electronic mail internet posts, and clothing"

Describe what happened (be specific - include time and dates):

On 9/24/19, at approximately 11:00 AM, Jeffrey Fondeur posted campaign material—an Instagram story, specifically—that we do not believe was registered with the Supervisor of Elections or their Assistant Supervisors of Elections prior to the time of distribution.

Specifically, the post showed Gator Party platform cards and an I Voted sticker in someone's hands in the immediate vicinity of a voting location (as indicated by the 'VOTE HERE' sign in the background of the photograph) and included the text "I Voted" and "@gatorpartyuf" and indicates that the photo was taken near the Springs Complex, which includes a voting location. The post is campaign material per §700.4(f), as it contains imagery of Gator Party platform cards in the immediate vicinity of a voting location accompanied by text indicating support for Gator Party.

§762.0 states "Candidates shall ensure that all "campaign material" as defined in Section 700.4(f) shall be labeled with the phrase "Registered Political Advertisement" or a phrase of similar import approved by the Supervisor of Elections. The phrase shall be followed by the name of the individual who authorized the creation of, disbursement of, or payment for, a piece of campaign material. In addition, all campaign material must be registered with the Supervisor of Elections or his or her Assistant Supervisors of Elections prior to the time of distribution. "Campaign material" shall include, but not be limited to, fliers, banners, posters, placards, electronic mail internet posts, and clothing".

Therefore, Jeffrey Fondeur committed a violation of §762.0 by failing to properly register a campaign material (an Instagram story post) before distributing it.

762.0

Describe what happened (be specific - include time and dates):

On September 25th, 2019, at approximately 1:23 AM, Gator Party candidate Aarin Kim posted campaign material—an Instagram story, specifically—that we do not believe was registered with the Supervisor of Elections or their Assistant Supervisors of Elections prior to the time of distribution.

Specifically, the post included the text "Hey guys don't forget to vote!!!" and "@GATORPARTYUF", and also included a poll for which options are "DONE IT!! [happy face emoji] [happy face emoji]" and "WORK IN PROGRESS". The post is campaign material per §700.4(f), as it contains text of support for voting for Gator Party candidates.

§762.0 states "Candidates shall ensure that all "campaign material" as defined in Section 700.4(f) shall be labeled with the phrase "Registered Political Advertisement" or a phrase of similar import approved by the Supervisor of Elections. The phrase shall be followed by the name of the individual who authorized the creation of, disbursement of, or payment for, a piece of campaign material. "Campaign material" shall include, but not be limited to, fliers, banners, posters, placards, electronic mail internet posts, and clothing".

Therefore, Gator Party candidate Aarin Kim seemingly committed a violation of §762.0, as he seemingly did not get this exact campaign material properly registered before he submitted it.

Describe what happened (be specific - include time and dates):

On September 25th, 2019, at approximately 4:58 PM, Gator Party candidate Damon Veras maintained a "story" on Instagram showing himself and two Gator Party supporters in Gator Party t-shirts. The post included the username of the Gator Party Instagram account and the text "VOTE". The photo is campaign material per §700.4(f), as it contains imagery of a Gator Party candidate and Gator Party supporters, an encouragement of viewers to vote, and is supportive of Gator Party. The photo did not include the phrase "Registered Political Advertisement" or a phrase of similar import approved by the Supervisor of Elections, as required by §762.0. Therefore, Veras violated §762.0.

Describe what happened (be specific - include time and dates):

On September 19th, 2019, at approximately 5:46 PM, Gator Party candidate Mary Faas posted campaign material—an Instagram story, specifically—that we do not believe was registered with the Supervisor of Elections or their Assistant Supervisors of Elections prior to the time of distribution.

Specifically, the post showed the Gator Party platform and included the text "Which do you resonate with??", "Change is coming", and the Gator Party Instagram account name. The post is campaign material per §700.4(f), as it is "electronic material used for the purpose of supporting a candidate or political party for an elective Student Body office" and contains imagery of Gator Party material and text that is supportive of Gator Party. Therefore, we believe that Faas violated §762.0 by failing to ensure that this material "registered with the Supervisor of Elections or his or her Assistant Supervisors of Elections prior to the time of distribution".

§762.0 states "Candidates shall ensure that all "campaign material" as defined in Section 700.4(f) shall be labeled with the phrase "Registered Political Advertisement" or a phrase of similar import approved by the Supervisor of Elections. Describe what happened (be specific - include time and dates):

On September 25th, 2019, at approximately 2:21 AM, Gator Party candidate Jeffrey Fondeur posted campaign material—an Instagram story, specifically—that we do not believe was registered with the Supervisor of Elections or their Assistant Supervisors of Elections prior to the time of distribution.

Specifically, the post included a graphic of the Gator Party logo, and the text "Voting day is finally here!!", "Polls close at 8:30 PM", and "At the polls". The post is campaign material per §700.4(f), as it contains imagery and text that comprises "electronic material used for the purpose of supporting a candidate or political party for an elective Student Body office". List 700 Codes that were violated:

763.5

Describe what happened (be specific - include time and dates):

At approximately 4:15 PM on 9/25/19, Gator Party's supposed president and fellow Gator Party candidates Lindsay Kaighin and Jeff Fondeur walked with several students to the voting location at the Springs Complex Area Office, campaigning well within the statutorily proscribed fifty feet of the voting location (see timestamp 1:30). These candidates are recorded with campaign materials in hand clearly within fifty feet of the voting location (see timestamp 2:10).

Jeff Fondeur had earlier included text in an instagram story he posted indicating that he had already voted.

§763.5 states that "No campaigning shall take place within fifty (50) feet of the door of any polling location or within 50 feet of any queue of voters defined in 700.4 (z) waiting to vote, with the exception of the designated outdoor tabling space at the J. Wayne Reitz Union."

Therefore, Gator Party candidates Emily Dunson, Lindsay Kaighin, and Jeff Fondeur each committed a violation of §763.5, as they are recorded campaigning within fifty feet of the door of the Springs Complex Area Office voting location as they spoke with students and left them at the voting location.

762.0

Describe what happened (be specific - include time and dates):

On September 24th, 2019, at approximately 5:31 PM, Gator Party member Kevin Trejos posted campaign material—an Instagram story, specifically—that we do not believe was registered with the Supervisor of Elections or their Assistant Supervisors of Elections prior to the time of distribution.

Specifically, the post included the Gator Party logo along with the text "I'm voting", "Are you voting for Gator Party?", and "And don't forget to vote today in SG Elections!!". The post is campaign material per §700.4(f), as it contains imagery of Gator Party materials and text that encourages viewers to vote for Gator Party. We believe that this campaign material was not "registered with the Supervisor of Elections or his or her Assistant Supervisors of Elections prior to the time of distribution" and that, therefore, Trejos violated §762.0.

§762.0 states "Candidates shall ensure that all "campaign material" as defined in Section 700.4(f) shall be labeled with the phrase "Registered Political Advertisement" or a phrase of similar import approved by the Supervisor of Elections. The phrase shall be followed by the name of the individual who authorized the creation of, disbursement of, or payment for, a piece of campaign material. In addition, all campaign material must be registered with the Supervisor of Elections or his or her Assistant Supervisors of Elections prior to the time of distribution. Procedures for distribution and posting of campaign material not provided for by the Student Government Election Code may be established by the Supervisor of Elections or by the Elections Commission. However, such procedures shall not be inconsistent with the Student Government Election Code and they shall not be effective unless presented in writing to the candidates and registered political parties twenty-four (24) hours prior to the time that any such procedures take effect."

§700.4(f) states "(f) "Campaign Material" means any print or electronic material used for the purpose of supporting a candidate or political party for an elective Student Body office, an initiative, a referendum question or proposed constitutional amendment. "Campaign material" shall include, but not be limited to, fliers, banners, posters, placards, electronic mail internet posts, and clothing"

List 700 Codes that were violated:

762.0

Describe what happened (be specific - include time and dates):

On September 25th, 2019, at approximately 6:33 PM, Gator Party member Fennzia Guerrier posted campaign material on Instagram that was not "labeled with the phrase "Registered Political Advertisement" or a phrase of similar import approved by the Supervisor of Elections."

Specifically, the post showed Guerrier and Gator Party candidate Kaitlynn Friscoe, Gator Party campaign material included the text "vote for @gatorpartyuf !!! you've got 2 hours left to have your voice heard!". The post is campaign material per §700.4(f), as it contains imagery of Gator Party members and text that directly encourages viewers to vote for Gator Party. As the post was not "labeled with the phrase "Registered Political Advertisement" or a phrase of similar import approved by the Supervisor of Elections", Guerrier violated §762.0.

§762.0 states "Candidates shall ensure that all "campaign material" as defined in Section 700.4(f) shall be labeled with the phrase "Registered Political Advertisement" or a phrase of similar import approved by the Supervisor of Elections. The phrase shall be followed by the name of the individual who authorized the creation of, disbursement of, or payment for, a piece of campaign material. In addition, all campaign material must be registered with the Supervisor of Elections or his or her Assistant Supervisors of Elections prior to the time of distribution. Procedures for distribution and posting of campaign material not provided for by the Student Government Election Code may be established by the Supervisor of Elections or by the Elections Commission. However, such procedures shall not be inconsistent with the Student Government Election Code and they shall not be effective unless presented in writing to the candidates and registered political parties twenty-four (24) hours prior to the time that any such procedures take effect."

§700.4(f) states "(f) "Campaign Material" means any print or electronic material used for the purpose of supporting a candidate or political party for an elective Student Body office, an initiative, a referendum question or proposed constitutional amendment. "Campaign material" shall include, but not be limited to, fliers, banners, posters, placards, electronic mail internet posts, and clothing"

Describe what happened (be specific - include time and dates):

On September 22nd, 2019, at approximately 10:09 PM, Gator Party candidate Andrew Goren posted campaign material—an Instagram story, specifically—that we do not believe was registered with the Supervisor of Elections or their Assistant Supervisors of Elections prior to the time of distribution.

Specifically, the post showed a video of what appears to be a Gator Party meeting and included the text "Vote gator party". The post is campaign material per §700.4(f), as it is supportive of Gator Party, contains imagery of Gator Party members, and includes text specifically encouraging viewers to vote for the candidate's party. We believe that this campaign material was not registered with the Supervisor of Elections or their Assistant Supervisors of Elections prior to the time of distribution, pursuant to §762.0, and that a violation of §762.0 occurred.

§762.0 states "Candidates shall ensure that all "campaign material" as defined in Section 700.4(f) shall be labeled with the phrase "Registered Political Advertisement" or a phrase of similar import approved by the Supervisor of Elections. Describe what happened (be specific - include time and dates):

On 08/24/19 at approximately 7:00 AM, Gabi Zlatanoff posted campaign material on Instagram that were not registered with the Supervisor of Elections or their Assistant Supervisors of Elections prior to the time of distribution.

Specifically, the post showed the supposed Gator Party president Emily Dunson and others in Gator Party shirts standing together and included the text "get out to the polls!", "POLLS OPEN TOMORROW VOTE SEPTEMBER 24 & 25", and "@gatorpartyuf". The post is campaign material per §700.4(f), as it contains imagery of Gator Party members standing with Gator Party campaign materials (apparently a board with polaroid photos included as well as the camera which appears to have taken the photos) and text which identifies the clearly partisan nature of the post ("@gatorpartyuf" next to "get out to the polls!" and "POLLS OPEN TOMORROW VOTE SEPTEMBER 24 & 25").

§762.0 states "Candidates shall ensure that all "campaign material" as defined in Section 700.4(f) shall be labeled with the phrase "Registered Political Advertisement" or a phrase of similar import approved by the Supervisor of Elections. The phrase shall be followed by the name of the individual who authorized the creation of, disbursement of, or payment for, a piece of campaign material. Specifically, the post showed apparent Gator Party member Jessica Jesurajan and included the text "thattttz my girl @jessicajesurajan" and "@gatorpartyuf". The post is campaign material per §700.4(f), as it contains text of support for a political party, as indicated by the fact that the image was posted by the Gator Party Facebook page and the text "@gatorpartyuf".

Describe what happened (be specific - include time and dates):

On September 25th, 2019, at approximately 6:23 PM, Gator Party member Kendall Runyan maintained a "story" on Instagram showing three Gator Party candidates and Gator Party campaign materials. The candidates included are Sean Heera, Andrew Goren, and Brandon Fallin. The story included the text of these three candidates' Instagram account names. The photo is campaign material per §700.4(f), as it is supportive of Gator Party, contains imagery of Gator Party candidates, and includes imagery of Gator Party campaign materials. The photo did not include the phrase "Registered Political Advertisement" or a phrase of similar import approved by the Supervisor of Elections, as required by §762.0. Thus, a violation of §762.0 occurred.

§762.0 states "Candidates shall ensure that all "campaign material" as defined in Section 700.4(f) shall be labeled with the phrase "Registered Political Advertisement" or a phrase of similar import approved by the Supervisor of Elections. 746.0

Describe what happened (be specific - include time and dates):

On September 23, 2019, at approximately 9:50am, Gator Party was seen tabling in the Reitz Union Outdoor Tabling Area, an area that was not reserved for the purpose of Student Government election tabling at that time. This is a violation of a Student Activities and Involvement regulation which states that "All student organization events or programs (excluding general organization meetings), that take place on University grounds, require an Event Permit obtained by completing a request through Gator Connect."

The J. Wayne Reitz Union Event Services Confirmation dated September 16, 2019 demonstrates that tabling was only allowed at the Reitz Union Outdoor Tabling Area on September 23 from 10:00 AM - 8:00 PM. Gator Party's tabling outside the Reitz Union at 9:50 AM on this day constitutes a violation of §746.0, which states that §746.0 states that "All political parties must comply with all rules and regulations governing student organizations set forth by the Department of Student Activities and Involvement."

The relevant regulation stating that "All student organization events or programs (excluding general organization meetings), that take place on University grounds, require an Event Permit obtained by completing a request through Gator Connect." can be found at <https://www.studentinvolvement.ufl.edu/Event-Planning/Event-Policies>.

List 700 Codes that were violated:

762.0

Describe what happened (be specific - include time and dates):

On September 24th, 2019, at approximately 3:21 PM, Gator Party candidate Andrew Goren maintained campaign material on Snapchat that did not include the phrase "Registered Political Advertisement" or a phrase of similar import approved by the Supervisor of Elections, as required by §762.0.

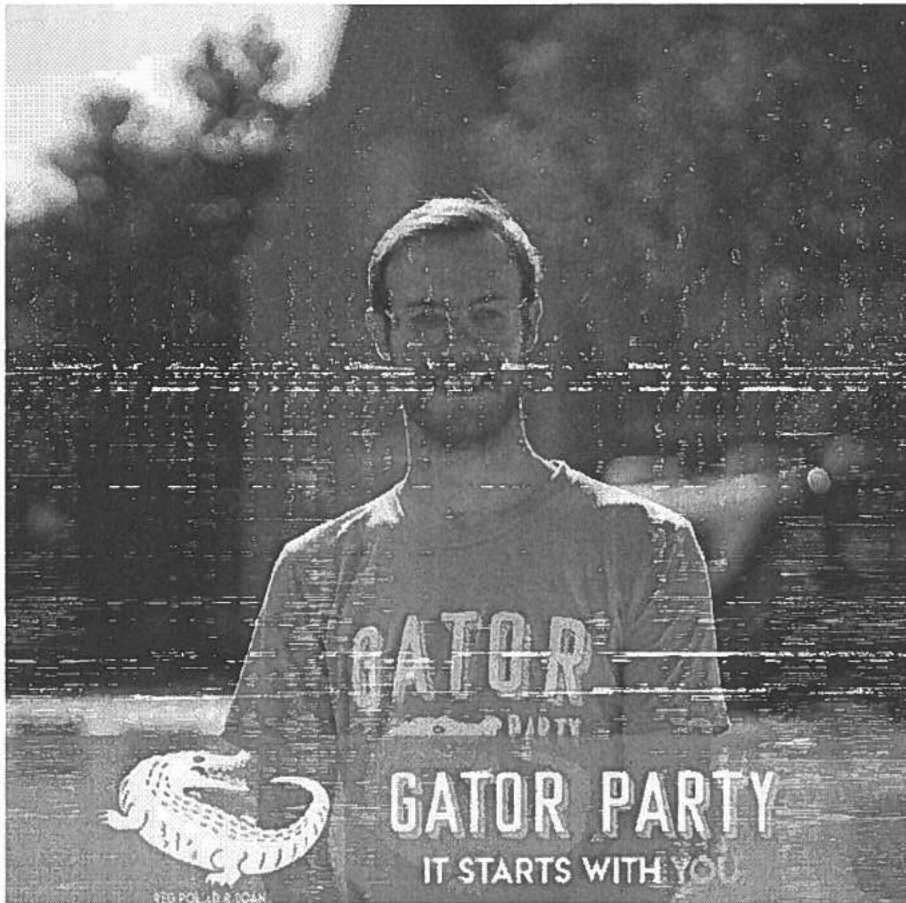

Specifically, the material was a Snapchat story showing Goren voting for himself and giving the camera thumbs-up signal. Pursuant to §700.4(f), this is "campaign material" as it is "electronic material used for the purpose of supporting a candidate or political party for an elective Student Body office" as it contains imagery of a Gator Party candidate showing support for himself and making a supportive gesture. Therefore, a violation of §762.0 occurred.

§762.0 states "Candidates shall ensure that all "campaign material" as defined in Section 700.4(f) shall be labeled with the phrase "Registered Political Advertisement" or a phrase of similar import approved by the Supervisor of Elections. The phrase shall be followed by the name of the individual who authorized the creation of, disbursement of, or payment for, a piece of campaign material. In addition, all campaign material must be registered with the Supervisor of Elections or his or her Assistant Supervisors of Elections prior to the time of distribution. Procedures for distribution and posting of campaign material not provided for by the Student Government Election Code may be established by the Supervisor of Elections or by the Elections Commission. However, such procedures shall not be inconsistent with the Student Government Election Code and they shall not be effective unless presented in writing to the candidates and registered political parties twenty-four (24) hours prior to the time that any such procedures take effect."

§700.4(f) states "(f) "Campaign Material" means any print or electronic material used for the purpose of supporting a candidate or political party for an elective Student Body office, an initiative, a referendum question or proposed constitutional amendment. "Campaign material" shall include, but not be limited to, fliers, banners, posters, placards, electronic mail internet posts, and clothing"

Hi! My name is Andrew Goren and I am running to be a District B senator at the University of Florida. For as long as I can remember, coming to this great University has always been a dream of mine! 4 years ago, I was accepted to this amazing university. 4 years later, a year in senate and so many amazing experiences later, I am honored and humbled to be running for a senate seat with this amazing new party, the Gator Party! The Gator Party is dedicated to making students' voices heard and finding the best solutions to issues occurring on campus. Feel free to comment and share my post to let me know what the missing piece might be on our campus. Thank you all and go Gators!

List 700 Codes that were violated:

762.0

Describe what happened (be specific - include time and dates):

On September 24th, 2019, at approximately 3:21 PM, Gator Party candidate Andrew Goren maintained campaign material on Snapchat that did not include the phrase "Registered Political Advertisement" or a phrase of similar import approved by the Supervisor of Elections, as required by §762.0.

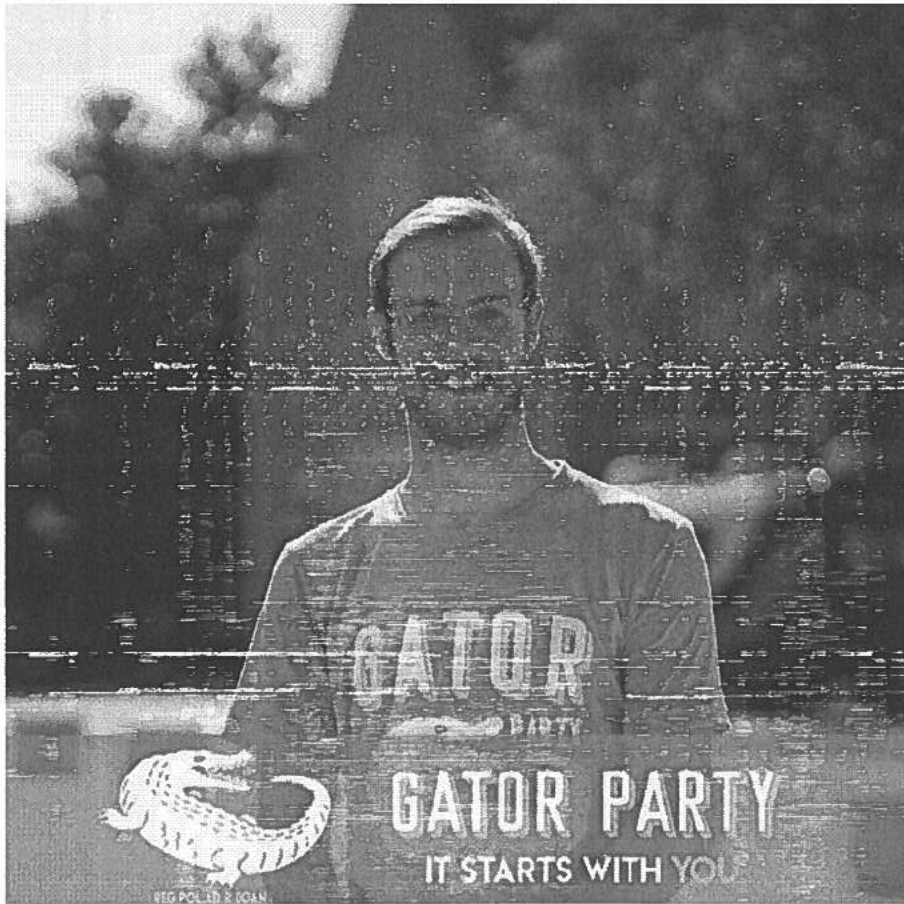

Specifically, the material was a Snapchat story showing Goren voting for himself and giving the camera thumbs-up signal. Pursuant to §700.4(f), this is "campaign material" as it is "electronic material used for the purpose of supporting a candidate or political party for an elective Student Body office" as it contains imagery of a Gator Party candidate showing support for himself and making a supportive gesture. Therefore, a violation of §762.0 occurred.

§762.0 states "Candidates shall ensure that all "campaign material" as defined in Section 700.4(f) shall be labeled with the phrase "Registered Political Advertisement" or a phrase of similar import approved by the Supervisor of Elections. The phrase shall be followed by the name of the individual who authorized the creation of, disbursement of, or payment for, a piece of campaign material. In addition, all campaign material must be registered with the Supervisor of Elections or his or her Assistant Supervisors of Elections prior to the time of distribution. Procedures for distribution and posting of campaign material not provided for by the Student Government Election Code may be established by the Supervisor of Elections or by the Elections Commission. However, such procedures shall not be inconsistent with the Student Government Election Code and they shall not be effective unless presented in writing to the candidates and registered political parties twenty-four (24) hours prior to the time that any such procedures take effect."

§700.4(f) states "(f) "Campaign Material" means any print or electronic material used for the purpose of supporting a candidate or political party for an elective Student Body office, an initiative, a referendum question or proposed constitutional amendment. "Campaign material" shall include, but not be limited to, fliers, banners, posters, placards, electronic mail internet posts, and clothing"

September 20 · 🌐

Hi! My name is Andrew Goren and I am running to be a District B senator at the University of Florida. For as long as I can remember, coming to this great University has always been a dream of mine! 4 years ago, I was accepted to this amazing university. 4 years later, a year in senate and so many amazing experiences later, I am honored and humbled to be running for a senate seat with this amazing new party, the Gator Party! The Gator Party is dedicated to making students' voices heard and finding the best solutions to issues occurring on campus. Feel free to comment and share my post to let me know what the missing piece might be on our campus. Thank you all and go Gators!

List 700 Codes that were violated:

763.5

Describe what happened (be specific - include time and dates):

On September 24th, 2019, at approximately 9:40 AM, Gator Party Broward-Rawlings candidate Olivia Potthast campaigned within fifty (50) feet of the door to the Broward Hall - Broward Rec Room voting location.

§763.5 states "No campaigning shall take place within fifty (50) feet of the door of any polling location or within 50 feet of any queue of voters defined in 700.4 (z) waiting to vote, with the exception of the designated outdoor tabling space at the J. Wayne Reitz Union."

Video evidence demonstrates that Potthast walked a potential voter directly to the entrance that leads to the voting location. Pursuant to §700.4(d), Potthast's act of walking the potential voter to the entrance to the building containing the voter location is campaigning, this is an "intentional action in support of, or in opposition to, a candidate or political party for an elective student body office". Therefore, a violation of §763.5 occurred.

§700.4(d) states "Campaigning" means any intentional action in support of, or in opposition to, a candidate or political party for an elective student body office, including, but not limited to the distribution of literature and posting of election specific materials. "Campaigning" does not include maintaining a website excluded to providing general information about the party and party members, or wearing campaign material, as defined in 700.4(f), a campaign shirt, a button, an emblem or similar paraphernalia, unless accompanied by the dissemination of campaign literature or the delivery of a campaign speech to solicit support for a candidate or political party.

762.0

Describe what happened (be specific - include time and dates):

On September 10th, 2019, at approximately 12:52 PM, Gator Party Keys candidate Jeffrey Fondeur posted campaign material on Facebook that did not include the phrase "Registered Political Advertisement" or a phrase of similar import approved by the Supervisor of Elections, as required by §762.0.

Specifically, the post included the text "It Starts With You!!", the slogan of Gator Party. The post is campaign material per §700.4(f), as it contains the slogan of Gator Party and shared Gator Party campaign material derived from the Gator Party Facebook page. Therefore, Fondeur violated §762.0 by failing to include the phrase "Registered Political Advertisement" or a phrase of similar import approved by the Supervisor of Elections, as required by §762.0.

§762.0 states "Candidates shall ensure that all "campaign material" as defined in Section 700.4(f) shall be labeled with the phrase "Registered Political Advertisement" or a phrase of similar import approved by the Supervisor of Elections. The phrase shall be followed by the name of the individual who authorized the creation of, disbursement of, or payment for, a piece of campaign material. "Campaign material" shall include, but not be limited to, fliers, banners, posters, placards, electronic mail internet posts, and clothing"

Describe what happened (be specific - include time and dates):

On September 16th, 2019, at approximately 2:23 PM, Gator Party member Damon Veras maintained a "story" on Instagram showing Gator Party members and campaign material. The photo is campaign material per §700.4(f), as it contains imagery of Gator Party supporters, Gator Party campaign materials, and is "electronic material used for the purpose of supporting a candidate or political party for an elective Student Body office". The photo did not include the phrase "Registered Political Advertisement" or a phrase of similar import approved by the Supervisor of Elections, as required by §762.0. Therefore, Veras violated §762.0.

§762.0 states "Candidates shall ensure that all "campaign material" as defined in Section 700.4(f) shall be labeled with the phrase "Registered Political Advertisement" or a phrase of similar import approved by the Supervisor of Elections. The phrase shall be followed by the name of the individual who authorized the creation of, disbursement of, or payment for, a piece of campaign material. 762.0

Describe what happened (be specific - include time and dates):

On September 24th, 2019, at approximately 2:30 AM, Gator Party campaign staff member Audrey Wikan maintained a "story" on Instagram showing images of several Gator Party candidates and including the text SO EXCITED TO WELCOME YOU GUYS INTO THE SENATE CHAMBER!!! and "Chi Omega supports Madeleine, Olivia & Kyie!". The image is campaign material per §700.4(f), as it contains imagery of Gator Party candidates posing for campaign-style and -produced headshot photos and text welcoming candidates into the Senate after their election and indicating support from a sorority for the Gator Party candidates. The photo did not include the phrase "Registered Political Advertisement" or a phrase of similar import approved by the Supervisor of Elections, as required by §762.0.

§762.0 states "Candidates shall ensure that all "campaign material" as defined in Section 700.4(f) shall be labeled with the phrase "Registered Political Advertisement" or a phrase of similar import approved by the Supervisor of Elections. The phrase shall be followed by the name of the individual who authorized the creation of, disbursement of, or payment for, a piece of campaign material. In addition, all campaign material must be registered with the Supervisor of Elections or his or her Assistant Supervisors of Elections prior to the time of distribution. Procedures for distribution and posting of campaign material not provided for by the Student Government Election Code may be established by the Supervisor of Elections or by the Elections Commission. However, such procedures shall not be inconsistent with the Student Government Election Code and they shall not be effective unless presented in writing to the candidates and registered political parties twenty-four (24) hours prior to the time that any such procedures take effect."

§700.4(f) states "(f) "Campaign Material" means any print or electronic material used for the purpose of supporting a candidate or political party for an elective Student Body office, an initiative, a referendum question or proposed constitutional amendment. "Campaign material" shall include, but not be limited to, fliers, banners, posters, placards, electronic mail internet posts, and clothing"

List 700 Codes that were violated:

765.1
746.0

Describe what happened (be specific - include time and dates):

On September 17th, 2019, at approximately 3:41 PM, Gator Party candidates Meryl Jones and Marcus Nelson tabled outside Beaty Towers in a manner which was out of compliance with SAI policies.

Specifically, the video shows the two candidates waiting for students to pass by to campaign to them on behalf of Gator Party.

§765.1 states "Campaign materials accompanying tables permitted pursuant to 765.0 may include a banner not to exceed 4' X 4'. Any banner under this section may be displayed in a manner that the total height does not exceed 12'. The supporting mechanism for such banner may not exceed 2" X 2" in girth. Campaign materials may be displayed on or around any table permitted pursuant to 765.0 in any manner subject to University guidelines and the other provisions of this chapter."

§746.0 states "All political parties must comply with all rules and regulations governing student organizations set forth by the Department of Student Activities and Involvement."

Thus, Gator Party is prohibited from tabling without a permit from SAI, as SAI states within its policies that "Tabling requires a permit submitted in Gator Connect by a member of the student organization." Because no such permit was submitted by Gator Party to table at Beaty Towers with their own table, Gator Party and candidates Meryl Jones and Marcus Nelson are not in compliance with §765.1 and §746.0.

Describe what happened (be specific - include time and dates):

On September 25th, 2019, at approximately 2:32 AM, Gator Party member Kendall Runyan maintained a "story" on Instagram showing a piece of Gator Party campaign material and tagging two Gator Party candidates, Anabelle Groux and Alexis Fletcher. The photo is campaign material per §700.4(f), as it contains imagery of Gator Party campaign material and mentions two Gator Party candidates. The photo did not include the phrase "Registered Political Advertisement" or a phrase of similar import approved by the Supervisor of Elections, as required by §762.0. Therefore, Runyan violated §762.0.

§762.0 states "Candidates shall ensure that all "campaign material" as defined in Section 700.4(f) shall be labeled with the phrase "Registered Political Advertisement" or a phrase of similar import approved by the Supervisor of Elections. The phrase shall be followed by the name of the individual who authorized the creation of, disbursement of, or payment for, a piece of campaign material. On September 19th, 2019, at approximately 5:41 PM, Gator Party candidate Mary Faas posted campaign material—an Instagram story, specifically—that was not registered with the Supervisor of Elections or their Assistant Supervisors of Elections prior to the time of distribution.

Specifically, the post showed Mary with a sculpture and included the text "SEPTEMBER 24th and 25!!" and "Vote for Mary My favorite roomie!". The post is campaign material per §700.4(f), as it contains imagery of a candidate and text of calling for people to support her, including text directly inputted by Mary with the election dates listed when students could vote for her, as directly asked for by her roommate.

§762.0 states "Candidates shall ensure that all "campaign material" as defined in Section 700.4(f) shall be labeled with the phrase "Registered Political Advertisement" or a phrase of similar import approved by the Supervisor of Elections. Describe what happened (be specific - include time and dates):

Though Gator Party has procured party shirts since at least 9/9/19 at 10:08 AM, as documented in evidence provided below, Gator Party has not yet disclosed a financial report which acknowledges these shirts, thus breaking several election laws relevant to financial practices.

§751.0, §751.1, §751.2, and §751.3, inter alia, establish that political parties must report all their contributions and expenditures by statutory deadlines, and further establish that failure of a party to report all their contributions and expenditures by statutory deadlines "shall be guilty of a violation of these Election Codes and be subject to penalty pursuant to 728.2."

§751.0 states, in part, that "Each political party, or candidate, if running as an independent, shall submit to the Supervisor of Elections each Monday by 5:00 P.M. starting after the mandatory meeting referenced in 713.5 until the Monday following the election, as well as the Tuesday, Wednesday, and Thursday of election week, a statement of all contributions and expenditures. A copy of all bills received or paid by the political party or on the political party's behalf as of noon on that same day shall accompany this statement."

§751.1 states that "All political parties and independent candidates must submit financial reports on time even if no funds were raised or spent during that reporting period."

§751.3 states that "If the Elections Commission finds that a political party or independent candidate failed to file a financial report pursuant to 751.0, or filed a late financial report, the party or candidate shall be guilty of a violation of these Election Codes and be subject to penalty pursuant to 728.2."

Gator Party did not report any contributions or expenditures specific to procuring any of their many shirts in the financial report they submitted on 9/9/19, which should have included a statement of all contributions and expenditures during that reporting period ending at noon on 9/9/19. Gator Party members are recorded in Gator Party shirts at 10:08 AM on 9/9/19. Based off indications from previous semesters, the cost of these shirts can be reasonably believed to be substantial. Because the Gator Party has failed to report their expenditures and/or contributions specific to these shirts by the required reporting time of 5:00 PM on 9/9/19.

Describe what happened (be specific - include time and dates):

On September 25th, 2019, at approximately 2:36 AM, Gator Party candidate Brandon Fallin maintained a comment on Instagram including the text "go gators go gator party". The comment is campaign material per §700.4(f), as it is supportive of Gator Party and is "electronic material used for the purpose of supporting a candidate or political party for an elective Student Body office" pursuant to §762.0. The photo did not include the phrase "Registered Political Advertisement" or a phrase of similar import approved by the Supervisor of Elections, as required by §762.0. Therefore, Fallin violated §762.0.

§762.0 states "Candidates shall ensure that all "campaign material" as defined in Section 700.4(f) shall be labeled with the phrase "Registered Political Advertisement" or a phrase of similar import approved by the Supervisor of Elections. The phrase shall be followed by the name of the individual who authorized the creation of, disbursement of, or payment for, a piece of campaign material. In addition, all campaign material must be registered with the Supervisor of Elections or his or her Assistant Supervisors of Elections prior to the time of distribution. Procedures for distribution and posting of campaign material not provided for by the Student Government Election Code may be established by the Supervisor of Elections or by the Elections Commission. 761.1

Describe what happened (be specific - include time and dates):

On July 9, 2019, The Independent Florida Alligator published a Letter to the Editor by current Gator Party member Brandon Pearson. In the letter, Pearson states that "Under former senators Grabowski's leadership, the Inspire Party has categorically failed to make any meaningful change, short of passing a handful of non-binding resolutions." This statement clearly fits the definition of "Campaign Activity" and therefore "Campaigning", as it is an "intentional action in support of, or in opposition to, a candidate or political party for an elective student body office" pursuant to 700.4 (d).

By publishing these attacks on the Inspire Party's leadership under Ashley Grabowski on July 9, 2019, a date which was not during an active election cycle, Pearson violated 761.1.

761.1 states that "Campaign Activities begin on the first day of the active election cycle and ends immediately after the close of polls on the final day of elections."

700.4 (d) states that "Campaigning" means any intentional action in support of, or in opposition to, a candidate or political party for an elective student body office, including, but not limited to the distribution of literature and posting of election specific materials. "Campaigning" does not include maintaining a website excluded to providing general information about the party and party members, or wearing campaign material, as defined in 700.4(f), a campaign shirt, a button, an emblem or similar paraphernalia, unless accompanied by the dissemination of campaign literature or the delivery of a campaign speech to solicit support for a candidate or political party.

700.4 (e) states that "Campaign Activity" will be interpreted as interchangeable with "Campaigning" and will be interpreted as having the full meaning ascribed in § 700.4(d) as per 2013-SC: Students Party v. Swamp Party decision.

List 700 Codes that were violated:

763.5

Describe what happened (be specific - include time and dates):

On September 25th, 2019 at approximately 1:14 PM, Gator Party members walked into the Reitz Union with potential voters, talking with them about the elections, and went down the elevator together towards the voting location at the SG Print Lab in the lower level of the Union. They were within the Reitz Union--clearly within 50 feet of the voting location there, in violation of §763.5.

§763.5 states that "No campaigning shall take place within fifty (50) feet of the door of any polling location or within 50 feet of any queue of voters defined in 700.4 (z) waiting to vote, with the exception of the designated outdoor tabling space at the J. Wayne Reitz Union."

Therefore, many Gator Party members who were present each committed a serious campaign violation, as they walked a relatively large group of voters toward a voting location when they were will within fifty feet of that voting location, engaging in prohibited campaigning.

List 700 Codes that were violated:

746.0 states that "All political parties must comply with all rules and regulations governing student organizations set forth by the Department of Student Activities and Involvement."

Describe what happened (be specific – include time and dates):

The Gator Party's very name, in addition to other materials like comments and slogans, violates the University of Florida SAI policies, as it utilizes the "Gator" mascot and name, which could reasonably confuse voters and imply endorsement of the University of Florida.

SAI policy specifically states:

Student organizations are separate entities from the University, therefore, student organizations are prohibited from referring to themselves as being part of the University. Thus, no student organizations may include: "University of Florida", "UF", or "Gators" in the name of their organization.

The use of the name "Gator" contradicts this policy.
